TUNIX/KeyApp enrollment

Android

When you enroll the TUNIX/KeyApp, you will no longer receive SMS messages instead you must start the App for authenticating for an application. In order to go back to SMS Authentication you have to de-enroll the TUNIX/KeyApp. Further details can be found in the manual in your App.

1. Go to <u>http://www.tunix.nl/keyapp</u> and download the TUNIX/KeyApp.

E	nroll phonenumber	
Phone number	003161 <mark>2</mark> 345678	
	SUBMIT	

2. Enter your phone number and click "Accept". Country code is mandatory.

En	roll phonenumber
Phone number	0031421112452
Activation code	
	SUBMIT

3. You will receive a SMS with the activation code. Fill in the code and submit.

4. When you request for authentication, you will receive a push message. Press it and confirm.

5. When you see this screen, you have successfully authenticated and your application should continue.
